

WEBSREETEC Content Management

The WEBSREETEC content management system offers quick and simple page editing of your website giving you control over the text and images, providing news releases, customer email databases, additional editors and despatch of e-newsletters.

Two Levels of Editing

- ü Webmaster
- ü Page editors.

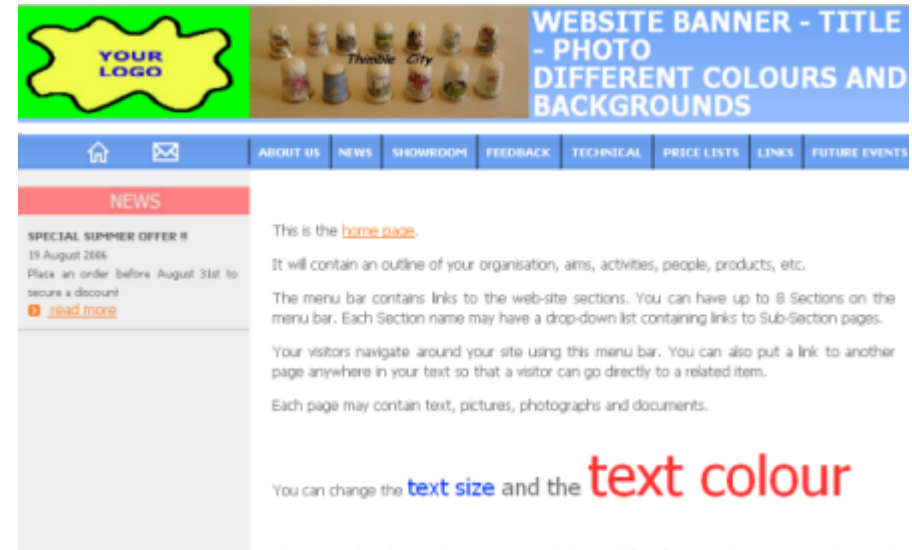

- ü No special software
- ü Training available

WEBSREETEC can provide the framework, design and develop the website up to an agreed point before handing over to you.

WEBSREETEC offer continued support by email and telephone.

From the framework you can develop a unique and functional website presenting your goods and services.

Ideal for:

- ü Small businesses
- ü Tradesmen
- ü Sports Clubs
- ü Extended Families sharing news and photos
- ü Individuals travelling
- ü Village websites
- ü Charities
